FOR OUTDOOR USE

HOW THE ZAPPLIGHT® MOSQUITO AND FLYING INSECT TRAP WORKS:
The unit is equipped with blue UV-A and white LED lighting to attract insects and/or illuminate the area. The unit attracts a wide range of flying insects with the lighting alone. A powerful insect trap fan creates a vacuum-like suction and pulls the insects inside. The white LED light is suitable for illuminating the area as a lantern. The unit also works with all functions running at the same time, so you can use it as a light, but still use it as an insect trap. To increase the trap’s effectiveness, place the ZAPPLIGHT® Mosquito Octenol Lure on the green cartridge chamber. Place the unit 10-20 ft away from where people will be sitting.

OPERATION:
1. To turn the unit ON, activating the trap function and UV-A light, simply press the power button “o” located on the front of the unit base.
2. To turn the white LED light ON, simply press the “w” button located above the power button.
3. To clean the unit, ensure the unit is OFF. Twist the catch tray clockwise from the base and discard any accumulating debris.

ZAPPLIGHT® MOSQUITO OCTENOL LURE
ACTIVE INGREDIENTS:
1-Octen-3-oI……………………………….6.3 %
OTHER INGREDIENTS……………………………………33.7 %
TOTAL………………………………100.0 %
*Equivalent to 150 mg 1-Octen-3-ol per Lure

CONTENTS: 1 Lure
NET WEIGHT: 0.06 oz.(2.4 g)/Lure

KEEP OUT OF REACH OF CHILDREN
CAUTION

Read Directions and Precautionary Statements Before Use

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION: Harmful if swallowed, absorbed through the skin or inhaled. Avoid contact with skin, eyes and mouth. Wash hands thoroughly with soap and water after handling.

FIRST AID
IF ON SKIN
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a Poison Control Center or Doctor for treatment advice.

IF IN EYES
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a Poison Control Center or Doctor for treatment advice.

IF SWALLOWED
• Call a Poison Control Center or Doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by Poison Control Center or Doctor.
• Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or Doctor, or going for treatment. For Emergency Information concerning this product, call the National Pesticide Information Center (NPIC) at 1-800-858-7378 seven days a week 6:30am to 4:30pm Pacific Time (NPIC Web site: www.npic.orst.edu). After 4:30pm call your poison control center at 1-800-222-1222.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. The ZAPPLIGHT® Mosquito Octenol Lure is intended for use as an attractant with electronic insect killers (“zappers”) and mosquito traps of all brands. It is designed to release 1-Octen-3-ol, an insect attractant, continuously for 30 days. Zapper or trap effectiveness is increased by luring mosquitoes and biting flies to it.

HOW TO APPLY:
1) Remove Lure Clip from the pouch.
2) Attach clip to the outer grid or enclosure of zapper or mosquito trap.
3) Replace lure clip after 30 days.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
PESTICIDE STORAGE: Store unopened container in a cool dry place until ready to use. Do not store with food.
PESTICIDE DISPOSAL: Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.
CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.

NOTICE:
When using electric appliances, basic precautions should always be followed, including the following:

• To disconnect, ensure the unit is OFF, then remove plug from outlet.
• Always unplug from outlet when not in use and before servicing or cleaning.
• To reduce the risk of electrical shock, do not put appliance in water or other liquid.

MAINTENANCE OF YOUR NEW TRAP:
1. Always turn unit off and disconnect plug before cleaning.
2. Do not position the unit near heat, gas, oil or other flammable materials.
3. To reduce the risk of injury, close supervision is necessary when the unit is used near children.
4. Do not contact moving parts – Do not touch fan while in motion.
5. Do not insert fingers or any foreign objects into the unit while it is connected to an electrical outlet.
6. Only use attachments recommended or sold by the manufacturer.
7. To disconnect, turn all controls to the OFF position, then remove plug from outlet.
8. Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
9. Unplug from outlet when not in use and before servicing or cleaning.
10. Never operate this product if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or if it has been dropped into water.
11. When being used with the ZAPPLIGHT® Mosquito Octenol Lure, unit is FOR OUTDOOR USE ONLY.
12. DO NOT IMMERSE IN WATER. To reduce the risk of electrical shock, do not clean this product with water or liquid spray. Do not place where it can fall into water, or near flammable materials.

NOTICE – High Voltage, Keep Out of Reach of Children.

NOTICE – Do not stick foreign objects, metal objects or fingers into the unit.
NOTICE – Do not tamper with or modify unit.
NOTICE – Do not clean unit while it is powered on.
NOTICE – Do not clean or spray the unit with water, cleaning spray, or any other liquid.
NOTICE – Do not clean unit while it is powered on.
NOTICE – Do not use or leave in rain.
NOTICE – Do not submerge unit in water or any liquid.
NOTICE – Do not use flammable liquids around unit.

This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna. • Increase the distance between the equipment and receiver.
• Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This equipment may not cause harmful interference.
2. This equipment must accept any interference received, including interference that may cause undesired operation.

Modifications not authorized by the manufacturer may void the user’s authority to operate this device. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
