Indoor/Outdoor Use

Weatherproof Construction
UV LED/Bug Zapper
Hangs, Clips, Stands

Features & Benefits

Portable
Solar = Renewable Energy
Micro USB (Cord not included)

ELECTRIC SHOCK RISK- DO NOT TOUCH THE ELECTRIC NET

Thank you for choosing the **PIC® Pest Free Living Insect Killer Lantern^{2X}**. Please read the instruction manual carefully to ensure use of this product complies with all safety regulations.

The weatherproof unit is equipped with a UV lighting function and a zapping grid which kills bugs on contact. The LED lantern is suitable for illuminating the area in 3 levels of brightness. The functions are operated independently, so you can use the lantern with or without the UV/Zapper.

The unit is solar powered or is micro USB rechargeable (cord not included in this purchase.) It is recommended that you place the unit away from you when using as a zapper to draw the insects towards the light.

IMPORTANT SAFETY INFORMATION

This product is for indoor and outdoor use. Check the product frequently for accumulating debris/dead insects as it may contribute to fire. Do not bend electrical grid and do not attempt to make repairs on the unit. Call our customer service department at **1-800-799-7302** for assistance.

OPERATION:

Before use, charge the unit via USB or in direct sun. Solar charging times vary based on sun brightness.

1. To turn the **Lantern ON**, simply press the  button. Keep pressing to toggle through the 3 brightness modes. The same button shuts the **Lantern OFF**.
2. To turn the **UV/zapper ON**, simply press the  button. The same button shuts the **UV/zapper OFF**.

3. Prior to **cleaning the unit**, turn the unit off. Gently spray canned air or a hair dryer on cool setting to blow away any accumulating debris if needed. Do not touch the electric grid.

CAUTION – High Voltage, Keep out of Reach of Children.

CAUTION – High Voltage, Power off unit before servicing.

CAUTION – Collected insects may be a fire hazard. Clean dead insects from the unit frequently.

WARNING – Skin or eye damage may result from directly viewing the light produced by this apparatus.

CAUTION – **ELECTRICAL SHOCK HAZARD MAY EXIST IF WATER FROM A GARDEN HOSE IS DIRECTED AT UNIT WHILE IN OPERATION.**

CAUTION – Do not stick foreign objects, metal objects or fingers into the unit.

CAUTION – Do not tamper with or modify unit.

CAUTION – Do not clean unit while it is powered on.

CAUTION – Before cleaning, allow unit to sit for at least 45 minutes to release charge from electric grid.

CAUTION – Do not clean or spray the unit with water, cleaning spray, or any other liquid.

CAUTION – Do not submerge unit in water or any liquid.

CAUTION – Keep out of contact with flammable items such as paper or clothing.

CAUTION – Do not use flammable liquids around unit.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.
